

Progress Book Questions and Answers

Can I change my password?

Feel free to change your parent access password. But **DO NOT** use a password that you use for other things such as your bank, on-line purchases, email, etc. The password you use for Progress Book may be accessible by multiple people!

What do I do if I forgot my password and/or username?

If you forgot your Password or Username **and you have logged in and entered your email address**, you can have either sent to you via email. Just go to the login screen, and you will see two links: Forgot your Password? and Forgot your User Name? Click on the appropriate one.

What do I do if I never had a username and want one?

If you never had a Username, you can request to have your Username sent to you by going to our Login Help page.

Why do the Art, Music, Phys Ed grades in grades K-5 show up as 0.00 and what is the grading scale for K-2?

Grading Scale for K-2 Plus K-5 for Art, Music and Phys Ed

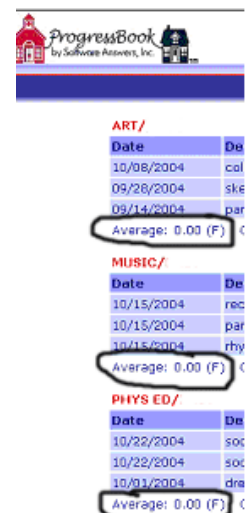

ME - Meeting Expectations

PR - Progressing

ND - Not Demonstrating Progress

Averages for Art, Music and Phys Ed

Since teachers are using the ME, PR, ND grading scale and these grades do NOT have a numeric value assigned to them, the Averages that Progress Book displays will not be accurate. As seen on the right, the Average categories show 0.00 (F). **Please ignore this value...it does not reflect your child's progress.**

The screenshot shows the Progress Book interface with three sections: ART/, MUSIC/, and PHYS ED/. Each section has a table with columns for Date and De (Description). The average score for each section is displayed as 0.00 (F) and is circled in red.
